*Want to learn how to create smooth transitional washes in watercolour that seamlessly change from one colour or value to another as they flow across the paper and how to use this technique to create a soft misty atmospheric painting? Take this workshop with award winning transparent watercolourist Ona Kingdon and learn the new keep fit craze the 'Watercolour Workout'.*

*Ona loves to focus on feeling or emotion when creating art and enjoys painting or drawing any subject matter that has an emotive element to it. Selecting a palette that is in keeping with the emotion or mood of each painting is also very important to her*

*Ona is a qualified teacher with over 15 years experience working with both children and adults. She is passionate not just about painting but educating too. Her goal is to increase awareness about the diversity of watercolour as a medium, to show others that you can create any effect or style you want if you embrace its dynamic qualities. Ona offers on line individual tutoring in both watercolour and pen and ink and is also available to critique artwork. She does a limited number of workshops a year.*
